1	VECTOR	Mammalian Gene Expression Vectors	684	Vector	Lentivirus	135,00 €	115,00	235.980,00 €	7,94	OFERT	20	SI	20
					MMLV retrovirus	135,00 €	115,00						
					Regular plasmid	135,00 €	115,00						
					Adenovirus	135,00 €	115,00						
					Adeno-associated virus (AAV)	135,00 €	115,00						
					PiggyBac	135,00 €	115,00						
					Tol2	135,00 €	115,00						
		Mammalian inducible Gene Expression Vectors (Tet-On/Off based)	Regular plasmid (Tet-On)		135,00 €	115,00							
			Lentivirus (Tet-On)										
			PiggyBac (Tet-On)										
			Regular plasmid (LoxP-Stop-LoxP)		203 €	175,00							
			PiggyBac (LoxP-Stop-LoxP)		203 €	175,00							
			Regular plasmid (FLEX)										
		Mammalian shRNA Knockdown Vectors	Lentivirus		85 €	75,00							
			Adenovirus		203 €	175,00							
			Adeno-associated virus (AAV)		85 €	75,00							
			PiggyBac		85 €	75,00							
			Regular plasmid (single gRNA)		85 €	75,00							
			Regular plasmid (dual gRNA)		246 €	210,00							
			Lentivirus (single gRNA)		85 €	75,00							
		Mammalian CRISPR Vectors	Lentivirus (dual gRNA)		246 €	210,00							
			Adenovirus (single gRNA)		203 €	175,00							
			Adenovirus (dual gRNA)		246 €	210,00							
			AAV (single gRNA)		85 €	75,00							
			PiggyBac (single gRNA)		85 €	75,00							
			PiggyBac (dual gRNA)		246 €	210,00							
			SAM (Synergistic Activation Mediator)		85 €	75,00							
			Regular plasmid gRNA sensor vector (for testing gRNA specificity)		203 €	203,00							
			Mammalian TALEN Vectors		Regular plasmid								
Mammalian Enhancer/Promoter Testing Vectors	Regular plasmid (for in vivo enhancer testing)	85 €	75,00										
	Regular plasmid (for in vitro enhancer testing)												
	Regular plasmid (for in vivo promoter testing)												
	Regular plasmid (for in vitro promoter testing)	85 €	75,00										
	PiggyBac (for in vivo enhancer testing)	85 €	75,00										
	PiggyBac (for in vivo promoter testing)												
Mammalian TK Donor Vectors (for CRISPR Targeting)	KO donor vector	721 €	615,00										
	KI donor vector	721 €	615,00										
Bacterial Recombinant Protein Expression Vectors	pET	203 €	175,00										
	pBAD	203 €	175,00										
Yeast Recombinant Protein Expression Vectors	Cold-shock induced	203 €	175,00										
	Saccharomyces cerevisiae	135 €	115,00										
	Pichia pastoris	135 €	115,00										
	Baculovirus (single promoter)	203 €	175,00										
	Baculovirus (dual promoters)												
Plant Gene Expression Vectors	Regular plasmid	135 €	115,00										
	Agrobacterium binary vector	135 €	115,00										
Zebrafish Gene Expression Vectors	Tol2	135 €	115,00										
BASE	Base	1.080.000	Base	0,60 €	0,20	216.000,00 €	52,06						
TOTAL						5.993,20 €	457.628,00 €						100,00
