

Plec de prescripcions tècniques relatives a la contractació del servei de manteniment correctiu de PC's i escàners de l'Organisme de Gestió Tributària de la Diputació de Barcelona.

1. Objecte.

És objecte del present plec fixar les especificacions tècniques particulars que hauran de regir la contractació del "Servei de manteniment correctiu de PC's i escàners de l'Organisme de Gestió Tributària de la Diputació de Barcelona" (en endavant ORGT).

2. Descripció del servei.

El servei a contractar consisteix en el manteniment i la reparació de tot l'equipament físic descrit en la següent taula i detallat en l'Annex 2 d'aquest plec.

		Número d'elements
HP Thin client T5740E	PC lleuger	771
HP Thin client T5745	PC lleuger	35
HP Thin client T610	PC lleuger	31
HP Thin client T630	PC lleuger	25
Brother ADS 2600W	Escàner	135
Canon Scan Front 330	Escàner	14
HP Compaq 6300 PRO	PC escriptori	33
HP Elitebook 1040 G2	PC portàtil	17
HP Elitebook 1040 G3	PC portàtil	16
HP Elitedesk 800 G2	PC escriptori	16
HP Elitedesk 800 G3	PC escriptori	16

El servei de manteniment no s'haurà de prestar pel contractista durant el període en que els equips tinguin una garantia vigent. La data de finalització de les garanties de cadascun dels equips s'indica en l'Annex 2 d'aquest plec.

Els elements i accessoris instal·lats en els ordinadors i perifèrics resten inclosos a les tasques de manteniment: electrònica bàsica, monitors (independentment del tipus), CPU, teclats amb lectors de targeta criptogràfica, ratolins i unitats òptiques. S'exclou d'aquest manteniment qualsevol tipus d'impressora.

En cas de substitució dels PC lleugers, PC portàtils o PC escriptori per a reparació, el contractista haurà d'instal·lar la imatge que correspongui al model substituït, realitzant les configuracions necessàries per deixar l'equip preparat per a que l'usuari treballi. Les tasques a realitzar són: instal·lar la imatge proporcionada, incloure'ls al domini de l'ORG, instal·lar i configurar les impressores en xarxa de l'oficina o el departament. La imatge i el procediment d'instal·lació els proporcionarà l'ORG al contractista.

Pel cas dels escàners, els tècnics del contractista hauran de configurar la IP de l'aparell, que serà proporcionada pel servei de HelpDesk de l'ORG. La substitució es donarà per acabada quan el HelpDesk comprovi la visibilitat remota de l'aparell.

L'empresa contractista efectuarà les intervencions sobre els equips contractats en el lloc d'ubicació dels equips afectats. Un cop començada la reparació, els treballs s'hauran de continuar fins enllestir-los, sempre que no hi hagi limitacions tècniques que obliguin a la seva interrupció.

L'ORGT de la Diputació de Barcelona podrà donar de baixa qualsevol dels equips inclosos en el contracte, amb la repercussió econòmica corresponent. Aquestes baixes es produiran a finals de cada mes.

2.1. Accés al servei

Les incidències que es puguin produir als equips, seran reportades pels usuaris al sistema de gestió d'incidències de HelpDesk de l'ORGT, aquest s'encarregarà de fer el primer diagnòstic amb un procediment consensuat amb el contractista. En cas de ser necessari, HelpDesk obrirà la incidència amb el contractista per a la seva resolució.

El contractista haurà d'elaborar el procediment de diagnòstic esmentat en el paràgraf anterior en un termini de set (7) dies naturals a partir de la signatura del contracte.

El Centre de Resposta del contractista, s'encarregarà de gestionar les peticions d'incidències que obrin els tècnics del HelpDesk de l'ORGT mitjançant qualsevol dels mètodes següents:

- Per telèfon: el contractista facilitarà un número de telèfon que permetrà l'obertura d'incidències.
- Per correu electrònic: el contractista proporcionarà una adreça de correu electrònic per l'obertura d'incidències, amb una confirmació pel mateix medi de la recepció de la petició.

2.2. Horari de cobertura

La franja horària en la qual s'atendran incidències des del Centre de Resposta és de dilluns a divendres, laborables, entre les 8:00 hores i les 17:00 hores. Tindran la consideració de dies laborables els establerts oficialment com a tal a la ciutat de Barcelona. Això no obstant, per als dies corresponents a festes locals de Barcelona, l'empresa haurà de garantir el servei a les oficines de l'ORGT que no tinguin seu a aquest municipi.

2.3. Temps de resolució

El temps de resolució és l'interval que transcorre des de que el HelpDesk de l'ORGT obre la incidència, fins que un tècnic autoritzat l'ha resolt, reestablint el servei al 100%.

El temps màxim de resolució es determina segons l'equipament avariats:

- Serà de 24 hores a partir de l'obertura de la incidència per a tots els models de PCs lleugers i els PC d'escriptori HP EliteDesk 800 G2 i HP EliteDesk 800 G3.
- Serà de 48 hores per a la resta dels equips.

2.4. Contingut del servei

El servei inclourà el desplaçament, les peces, paquets de manteniment dels escàners, qualsevol element de desgast, la mà d'obra i qualsevol altra despesa necessària per mantenir l'equipament en unes condicions de funcionament correctes.

Els elements o materials subministrats hauran d'ésser originals o expressament assenyalats com a equivalents per al fabricant de l'equip original. Tota peça o part de la peça retirada o substituïda passarà a ser propietat del contractista i totes les incorporades passaran a ser propietat de l'ORGT.

En cas de que l'element a substituir sigui susceptible de contenir informació, el contractista s'haurà de comprometre a destruir-la garantint la seva confidencialitat fins aquest moment.

2.5. Seguiment i control

El contractista haurà d'assignar una persona responsable del servei, que farà tasques d'interlocutor amb l'ORGT, i tindrà les següents funcions:

- Coordinar els tècnics que puguin intervenir en el servei.
- Elaborar un informe trimestral on es relacionaran totes les incidències del trimestre anterior. Per a cada incidència s'indicarà la data d'obertura, una breu descripció de la incidència i la data de tancament. A més es farà constar si es compleix o no la SLA de temps de resolució.
- Aquest interlocutor serà l'encarregat de planificar reunions trimestrals de seguiment entre l'ORGT i el propi contractista.

ANNEX 1

Al Plec de prescripcions tècniques de la contractació consistent en el **Servei de manteniment correctiu de PC's i escàners de l'Organisme de Gestió Tributària de la Diputació de Barcelona.**
