

## RESOLUTION OF THE PROCUREMENT AUTHORITY

### PROCEDURE RELATING TO THE VERIFICATION AND AUTHORIZATION OF ACCESS TO THE ELECTRIC VEHICLE RECHARGING INFRASTRUCTURE MANAGED BY BARCELONA DE SERVEIS MUNICIPALS, SA

**NO. FILE: 2024EM0040AC**

**I.-** Given the file instructed for the promotion of the procedure for the verification and authorization of access to the electric vehicle charging infrastructure managed by Barcelona de Serveis Municipals, SA

**II.-** Given the technical and legal reports that make up the procurement file relating to the justification and suitability of the contract; justification of the selection criteria, award and special conditions of execution.

**III.-** Given that all the previous procedures provided for by the applicable regulations have been carried out in order to consider the recruitment file completed.

The contracting body **RESOLVES:**

**First.-** Set the conditions relating to the technical and solvency requirements necessary so that interested third-party operators can be verified and access the electric vehicle charging infrastructure managed by Barcelona de Serveis Municipals, SA

**Second.-** Arrange for the opening of the open procedure for the accreditation of compliance with requirements and solvency of the suppliers, for a term of execution of **ONE (1) YEAR**, contemplating the possibility of agreeing up to four (4) additional extensions, in accordance with the documentation integrating the procedure.

**Third.-** Give the procedure the necessary publicity through the Contractor's Profile, in order to guarantee the possibility of competition by all interested parties.

Barcelona, on the date of the electronic signature

Mrs. Marta Labata Salvador  
Director General  
Barcelona Municipal Services, SA
